 Ranjith Ganesh B.

## Work Experience

---

### Altivox - Designer

March 2024 - Present

<< Figma

- Designed and optimized over 25+ graphics designs for websites and digital advertisements.
- Stayed updated on industry trends and improved design quality and effectiveness.

### NSIC - Inplant Training

July 2024

<< Proteus software

- Worked on a project to design and develop circuits using GP boards. Gained hands-on experience with electronic design
- Learnt the Proteus software to design complex circuits and visualize them in 3D.

### Tech Society (College Club) - Designer

Oct 2024

<< Figma | Photopea | Canva

- Created and designed 15+ posters for a range of events, ensuring brand consistency and visual appeal.
- Collaborated with event organizers to produce graphics that effectively communicated each event's theme and purpose.
- Contributed to boosting event visibility and engagement through high-quality, impactful design.

## Personal Projects

---

### Alarm App

- Created a customizable alarm app using MIT App Inventor, enabling users to set, customize, and manage alarms with ease. The app offers sound selection, repeat options, and a simple interface to enhance user experience.
- **SKILL GAINED** : Visual programming, logic flow design, event-driven app development, user interface design, time-based event handling.

### Saveetha Engineering College

B.E Electronics & Communication  
CGPA - 7.5% - (2023 to Present)
